The School of Arts, Technology, and Emerging Communication invites applications for its programs

Do you appreciate the opportunities of cross-disciplinary education?
Would you like to develop your creative skills?
Do you aspire to be a visionary scholar, researcher and artist?

ATEC, the School of Arts, Technology, and Emerging Communication at the University of Texas at Dallas, invites applications for its programs: ATEC **Master of Arts** (MA), ATEC **Master of Fine Arts** (MFA), ATEC **Doctor of Philosophy**.

The ATEC MA in Arts, Technology, and Emerging Communication.
Areas of Study:

- Interaction Design
- Emerging Media Studies

It aims to improve undergraduate education through further study of theories and methodologies in technology and media studies as well as contemporary debates in the fields. After the coursework, students undertake independent research to pursue their own scholarly questions for their theses.

The ATEC MFA in Arts, Technology, and Emerging Communication.
Areas of Study:

- MFA Animation
- MFA Creative Practice
- MFA Game Development

A terminal degree to teach arts and technology-related courses at the college level or to engage in studio or design practice. Students participate in a culture of community and critique, develops the creative use and critical investigation of technology in artistic practices.

Doctor of Philosophy (PhD).
The program of he PhD in ATEC is designed both for students wishing to teach arts- and-technology-related courses in colleges and universities and those who wish to develop artistic, cultural or commercial applications of digital technology/emerging media. This program promotes the fusion of creative with critical thinking and theory with practice.

In response to the current circumstances surrounding the COVID-19 pandemic, UT Dallas has extended the deadlines for the 2020 admission for the MA and AMF programs to the 1st July 2020.
