

Europeana Photography new partner from Kiev

[EuropeanaPhotography](#) consortium is happy and proud to announce that the group is growing! It was just signed an agreement for the provision of amazing new content with a new content provider from Ukraine.

So welcome to company **SC BALI** and to **Ms. Olga Barkova** and her colleagues.

SC BALI is a company based in Kiev that already has experience with EU projects; the general activity is the international business and one of the directions is ICT in the cultural, science and education sectors, including the distribution and developing of software.

Ms. Olga Barkova in her studio

SC BALI has been an official contributor of the Linked Heritage Project and already has got experience in delivering content to Europeana. For EuropeanaPhotography, it will be a collector for photographic collections belonging to Ukrainian libraries and

archives, helping them with metadata preparation and content providing.

The technicians of SC BALI are already at work testing the EuropeanaPhotography MINT tool to provide a first batch of photographs. Thanks to this collaboration, Ukrainian and Russian languages will also be added to the [EuropeanaPhotography Vocabulary](#)!

And, at the end of November, SC BALI is organizing [a very interesting workshop in Kiev](#), also focused on EuropeanaPhotography.
