Museum Next conference in NYC

MuseumNext is a global conference on the future of museums. Since 2009 it has acted as a platform for showcasing best practice today to shine a light on the museum of tomorrow.

MUSEUMNEXT NYC

MuseumNext NYC will take place on 14-15 November 2016 with two days of curated presentations on the theme of Transformation.

This conference will bring together the disrupters and the change-makers, focusing on those who are transforming museums through action rather than theory.

The <u>call for papers</u> was open until the end of June.

Themes:

Transforming Lives? How can museums have a positive social impact on the communities that they serve, changing lives, improving cities and acting as catalysts for change.

Transforming Practices? How is best practice evolving to better meet the needs of a rapidly changing world, we are interested in examples of innovative practice from across the museum.

Transforming Places? How are museums transforming their spaces to meet the needs of their audiences and how are they working with their audiences and external experts to achieve this.
