

Concertation among EC-funded PCP projects

On February 10th, 2014 the Innovation Unit of the European Commission organised the 1st concertation meeting for ongoing Pre-Commercial Procurement projects. This represents a good opportunity to collect information about good practices and to bring up problems or questions.

PREFORMA has been invited to the meeting and three representatives participated and presented the project:

- the Coordinator Borje Justrell from the Swedish National Archives (Riksarkivet);
- the Technical Coordinator and Communication Manager Antonella Fresa from Promoter Srl;
- Peter Pharow from Fraunhofer-Institut for Digital Media Technologie IDMT, who will lead the first phase of the procurement - the design phase.

Download [here](#) the project presentation delivered by Borje Justrell.
