

Second concertation meeting for on-going PCP projects

PREFORMA has been invited to the second concertation meeting for all on-going PCP projects in DG Connect, organised by the European Commission in Brussels on the 5th of March 2015.

During this event the EC wants to give the opportunity to the attendees to network and share experiences on common issues that they face while implementing PCPs.

Taking into account that in the first concertation meeting all PCP projects already presented their project scope and planned activities, this year's meeting will focus more on practical issues that concern the actual execution of a PCP.

The topics that will be discussed during the workshop are:

- The transition from PCP to PPI
- How to prepare a PCP call for tender
- The link between PCP projects with other innovation policy measures (standardisation, venture capital and others)
- The transition between the different phases of a PCP project
