LIBIS/AWare conformance checker
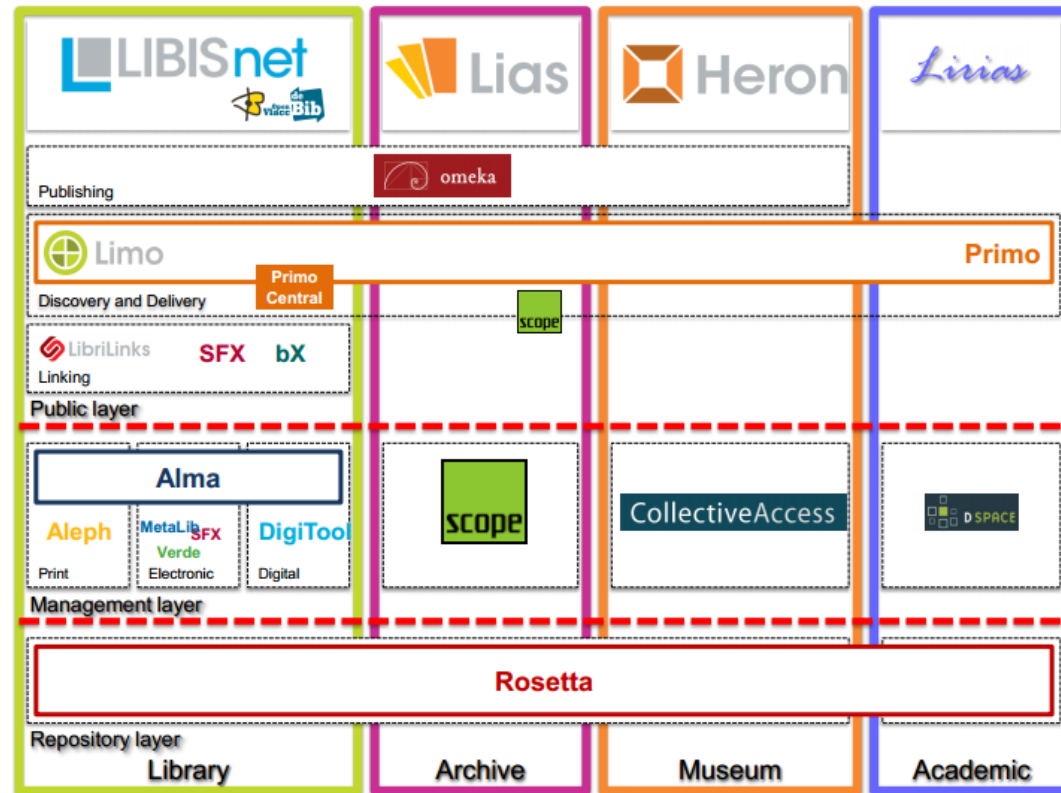

Sam Alloing

Preforma Kickoff

LIBIS

- Service provider for archives, museums and libraries
  - We integrate products of vendors or open source software to a complete solution for our partners
- Part of University of Leuven
  - Partners are inside and outside of the university
- Since early 70's
- Service offer for external organisations (> 120)
- 19 qualified staff
  - Analysts and developers

TIFF conformance checker

- Plugin based
  - First plugin will be TIFF
  - Checks TIFF conformance to specification, but also gives warnings to user regarding preservation and data exchange problems in the TIFF
  - Metadata fixer
  - Reporter module
  - Policy checker (also includes preservation policies)
- Outcomes phase 1:
  - List of errors, problems and obstacles in TIFF format (including a test file for every problem so developers/ISO working group)
    - => will also be used to test our solution in the next phases
  - Analysis of the complete solution
- Subcontractor: AWare systems
  - Lot of experience in TIFF development

Thank you !
