Your poster could win you a free ticket to TNC2012

Submit a poster abstract of 100-250 words on the conference topics:

BITS & WIRES network technology, network management, control planes, virtual networks, future netw… …and, network architectures USING THE STUFF federations, virtual organisation & collaborations, e-scien… …ecosystems, future research communities, future of the classroom, student communities, identity managem… …learning communities, intelligent crowds SUPPORTING COLLABORATION real-time collaboration… …beyond academic boundaries, social media INFRASTRUCTURE & SERVICES advanced media, locati… …uds, storage and databases, advanced & demanding applications SOCIAL & SECURE social considerat…

10 students will be selected to present their posters at TNC2012, the largest and most prestigious European research and education networking conference, that brings together decision makers, networking specialists and managers from research networking organisations, universities, and industry representatives. The selected students attend free of charge and receive travel support of up to 500 EUR (after approval from TERENA) and the Reykjavik University offers accommodation to the student-participants, staying with local students.

The best poster wins a prize - sponsored by Cisco Systems and the Internet Society.

Featuring a poster at the TERENA Networking Conference in Reykjavik, Iceland, will be an excellent advertisement for your ideas, so act soon to win your free ticket!
Your poster should summarise your ideas using graphs and images and using text more sparingly. Send your poster abstract to tnc2012@terena.org with the subject "TNC2012 Student Poster" and with your short biography (up to 100 words).
Accepting entries until 13 April 2012.
