

A Cloud for All - EU cohesion funds webinar

A Cloud for All ? EU cohesion funds webinar

The **webinar "A Cloud for All - EU cohesion funds webinar"** took place on 28 November 2023, from 11:00 AM to 12:15 PM CET, with about 400 participants.

A stakeholder survey from autumn 2022 revealed that many institutions across the EU struggle with a lack of resources and competencies in the digital field, which is all the more true particularly for smaller, rural and remote institutions. Therefore, this webinar is dedicated to providing cultural heritage institutions with **valuable insights and practical knowledge** on how to access structural funds to ensure for example fast and reliable broadband internet, up-to-date IT equipment, and access to training for IT skills, **to fully profit from the benefits of the upcoming [Cultural Heritage Cloud](#).**

The programme included examples of heritage projects realized with support of EU funds, including 3D digitization, museums' enhancement and other digital experiences with heritage collections and accessibility.

PROGRAMME

- Opening speech by Deputy Director General of DG RTD, Ms. Joanna Drake
