Submit your works now!!! [click here](#) ]

The selections will be based on the main concept of **?Identities?** and on all its reflections on cities, bodies, society and cultures, mixing borders between them. Everyday we deal with a multitude of different identities and roles: we face the public life creating and adapting our social identities; our body and aesthetic tastes modify and are modified by our physical and sexual identities; our whole being evolves as well as contemporary cultures and modern cities do. People, environments, societies, progress and all their inputs shape and regenerate our individualities; they shift and overlap with our selves creating a new stimulating world.

The event is open to video art, photography, computer graphics, installations and performances. For more details [click here](#) **International ArtExpo** is a not for profit organization that provides a significant forum for cultural dialogue between all artists from different cultures and countries. ArtExpo is grateful to all of the institutions, corporations, and individuals who support our artistic projects. We work with a number of national and international galleries as well as publishers, museums, curators and critics from all over the world. We help artists through solo and group exhibitions, gallery representation, magazine reviews and advertisements, press releases, internet promotion, as well as various curatorial projects.
