

Cloud Forward Conference 2016

Following the successful CF2015 conference organised by [Promoter srl](#) in Pisa October 2015, the **Cloud Forward 2016 Conference: From Distributed to Complete Computing** took place in **Madrid** at the Circulo de Bellas Artes from **18 to 20 October 2016**.

>> Check out the [full programme](#) and the [confirmed speakers](#). <<

The CF2016 Conference gathered experts from industry and academia to present and discuss the future of and beyond Cloud Computing. Based on the HOLA Cloud project and platform - which documents European research, development and innovation in CLOUDs ? the conference reviewed experiences and discusses future directions to overcome problems and provide new opportunities for the utilisation of leading edge CLOUD Computing by industry and academia and for ICT developers providing

innovative solutions.

The conference provided the scientific community a dedicated setting for presenting and discussing innovative technologies in the area of distributed computing, as well as new technologies beyond CLOUDs, ranging from architectures over methodologies to new applications and services.

Integral to the conference, the work of the **clusters of experts and EC projects** working on 'beyond current CLOUD' topics was presented.

The event also hosted a dedicated **SME event** to investigate innovative technologies, promote business ideas and foster current game-changers arising on the market.
