

## Computer Vision Conference (CVC) 2019

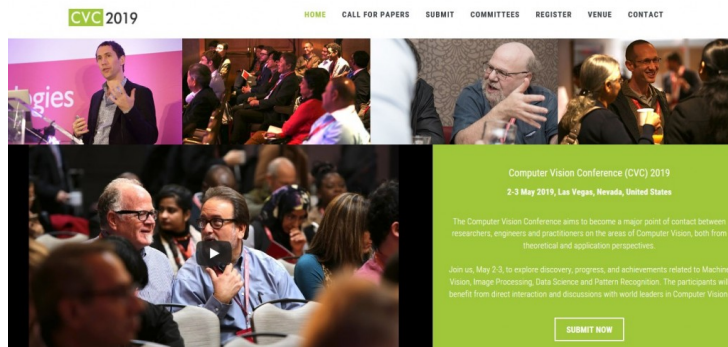

The Computer Vision Conference builds on previous [SAI conferences](#) and aims to become a major point of contact between researchers, academic faculty, students, engineers and practitioners on the areas of Machine Vision, Image Processing, Data Science and Pattern Recognition, both from theoretical and application perspectives.

Join us, May 2-3, to explore discovery, progress, and achievements related to Machine Vision, Image Processing, Data Science and Pattern Recognition. The participants will benefit from direct interaction and discussions with world leaders in Computer Vision.

Call for papers was open until 15 August: participants will have the opportunity to present the results of their research, and benefit from direct interaction with their scientific peers, in a friendly and constructive environment. The conference will feature keynote speakers, paper presentations, technical interviews, and posters from industry and academia.

Complete details are available on the conference website : <http://saiconference.com/CVC>

CVC 2019 proceedings will be published in Springer series "Advances in Intelligent Systems and Computing" and submitted for indexing to ISI Proceedings, EI-Compendex, DBLP, SCOPUS, Google Scholar and Springerlink. The publications within "Advances in Intelligent Systems and Computing" are primarily proceedings of important conferences, symposia and congresses. They cover significant recent developments in the field, both of a foundational and applicable character.
