

Conference of the working group "Documentation" of the German Museums Association, Berlin

Since 1994, the German Museums Association hosts twice a year one of the most important forums in Germany for the exchange of information on questions of conventional and computer-assisted museum documentation.

Representatives will be presenting news of ongoing projects and introducing new ones. A good opportunity to reach a wide and established museum community and to start up new cooperations.

Inés Matres member of the HamoSearch consortium, will speak about on the HarmoSearch mapping tool, on Tuesday, 16 October ([ppt file](#), 2,4 mb).
