Conference of the working group "Documentation" of the German Museums Association, Berlin

Since 1994, the German Museums Association hosts twice a year one of the most important forums in Germany for the exchange of information on questions of conventional and computer-assisted museum documentation.

Representatives will be presenting news of ongoing projects and introducing new ones. A good oportunity to reach a wide and established museum community and to start up new cooperations.

Inés Matres member of the HamoSearch consortium, will speak about on the HarmoSearch mappping tool, on Tuesday, 16 October (ppt file, 2,4 mb).
