

Connecting cities urban media symposium

In the framework of the European project **Connecting Cities: Participatory City 2014**, iMAL organises an **Urban Media Lab** masterclass.

To first enrich the thinking and open new perspectives, renowned researchers and artists were invited for discussing various aspects of urban media during a two days symposium. The symposium is free and open to the public. Due to the limited amount of seat, registration is highly recommended!

This symposium will serve as an introduction to an intensive six days workshop led by artists **Ali Momeni & Luciano Pinna**, where selected participants will produce artworks that explore new forms of urban participation, using existing mobile technologies and custom DIY devices.

Finally, at the end of the workshop, join the organisers on June 20 & 21 in the public space around iMAL to experience the projects produced by the artists!

During two days, artists, researchers and thinkers will share their experience and thoughts about **urban media** and interventions, the **smart city** and other techno-urban utopias, participation and **engagement** of citizens, urban devices and interfaces, **augmented reality**...

Schedule:

Friday 13 June
