

Digital Past Conference 2021

New technologies in heritage, interpretation and outreach

Organised by the Royal Commission on the Ancient and Historical Monuments of Wales, **Digital Past** is an annual two-day conference which showcases innovative digital technologies and techniques for data capture, interpretation and dissemination of the heritage of Wales, the UK and beyond.

Running for the twelfth year, in light of the uncertainty caused by COVID-19 Digital Past 2021 was held as an online conference via the Zoom platform. One day of presented talks on Wednesday 10 February was supplemented by workshops across the week of 8 to 12 February 2021.

Bringing together individuals from the commercial, public, academic, third sector and voluntary sectors, the conference aims to promote learning, discussion and debate around a range of digital technologies in current use, or in development, to record and understand the historic environment.
