

Digital Presentation and Preservation of Cultural and Scientific Heritage - DiPP2019

The Ninth International Conference on **Digital Presentation and Preservation of Cultural and Scientific Heritage?DiPP2019** will be organized under the patronage of UNESCO and Burgas District Administration. It aims at presenting innovative results, research projects and applications in the field of digitisation, documentation, archiving, representation and preservation of global and national tangible and intangible cultural and scientific heritage.

DiPP2019 web site: <http://dipp2019.math.bas.bg/>

Call for papers: [PDF, 311 Kb](#)

The deadline for title and authors' names submission: 20 May 2019.

The deadline for paper submission: 5 June 2019.

The focus of conference Digital Presentation and Preservation of Cultural and Scientific Heritage - DiPP2019 is to provide open access to digitised cultural heritage and to set up sustainable policies for its continuous digital preservation and conservation. The priority area is the digital presentation and preservation of cultural and historical objects under conditions of risk. The forum will demonstrate innovative technologies and prototypes, including digital repositories, digital archives, virtual museums and digital libraries, which result from established practices and achievements in the field. Representatives of a number of public and specialised libraries, museums, galleries, archives, centres, both national and foreign research institutions and universities will be invited to participate and exchange experiences, ideas, knowledge and best practices of the field.

There will be also Workshop on Open Access to Scientific Publications, Data and Data Science, which will primarily focus on the following activities: Open Access indicators; disseminate partners' best practices; discuss research problems in the field; discuss the possibilities of establishing a network of open access repositories; contribute to the problems of the harmonization of national legislation and practices; and discuss the possibilities of developing training courses for creators and managers of scientific digital repositories to ensure interoperability.
