DPF Manager v3.2 released and available to download

DPF Manager has been updated to version 3.2.

This new version includes several new features, improvements and some bug fixes.

New Features and improvements

- Built installers for 32 and 64 bit architectures in both Windows and Linux
- Save running task total time in report
- New policy check: long edge check
- Improved reports section, showing PDF reports stats, and browse report folder
- Copiable text in report tooltips
- More complete PDF reports
- Clarified policies texts

Fixes

- Filenames with non-standard characters
- TIFF file structure IFD index bug

- Wrong character encoding in metadata containers
- Report not generated in some TIFF cases

Many of these new features and bug fixes have been reported in the Github issue tracker. Don't hesitate to use it for any comment and suggestions!
