Chimera is a female-run virtual exhibition platform and art agency, and currently its focus is on game engines and metaverses.

Chimera is glad to present their latest gamified solo project ?**Dream Space**? by visual artist and sculptor Nata Drachinskaya and curated by Anastasia Ustrugova.

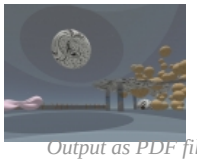

The exhibition opened on the 22nd of August, and offers a narrative on how to rebuild life after trauma: in order to cope with the related emotions and feelings, the artist has built a space referencing a lucid dream, consisting in a type of dream in which the person is in control.
