EAGLE MediaWiki - vote now!

EAGLE project and network aims to build a multi-lingual online collection inscriptions from the Greek and Roman World. The aim of the network is to make available the vast majority of the surviving inscriptions of the Greco-Roman world, complete with the essential information about them and with a series of peer-reviewed translations in several European languages. These are notoriously unavailable for inscriptions, as photos.

The EAGLE Mediawiki is designed to give a tool to anyone interested in bridging this gap and contributing translations of inscriptions, either by providing groups of translations or providing new ones.

Discover EAGLE MediaWiki HERE.

The EAGLE MediaWiki has been nominated in the category **"Best DH Tool"** for the 2016 Digital Humanities Awards.

Digital Humanities Awards are a set of entirely open annual awards run as a DH awareness raising activity. The awards are nominated and voted for entirely by the public. These awards are intended to help put interesting DH resources in the spotlight and engage DH users (and general public) in the work of the community.

Vote

HERE for EAGLE MediaWiki!]

Voting will be open until 25th February 2017.
