

ENRICH 2013 Workshop

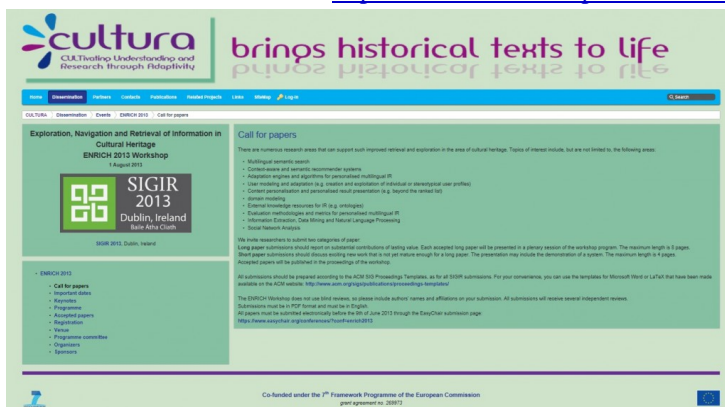

In the framework of SIGIR conference, **ENRICH workshop** will be hosted in the Long Room Hub, at the Digital Arts and Humanities Research Institute of Trinity College Dublin, on **August 1st 2013**.

ENRICH is supported by EU projects [CULTURA](#) and [Paths](#), to discuss topics of interest related, but not limited to, the following areas:

Multilingual semantic search
Context-aware and semantic recommender systems
Adaptation engines and algorithms for personalised multilingual IR
User modeling and adaptation (e.g. creation and exploitation of individual or stereotypical user profiles)
Content personalisation and personalised result presentation (e.g. beyond the ranked list)
Domain modeling
External knowledge resources for IR (e.g. ontologies)
Evaluation methodologies and metrics for personalised multilingual IR
Information Extraction, Data Mining and Natural Language Processing
Social Network Analysis

Official website of the event: <http://www.cultura-strep.eu/events/enrich-2013/call-for-papers>

Call for papers is open until 9th June.
