EUreka3D and ARTEST project - coordination meeting

In the context of the third project plenary and demo event in Limassol on 29/5/2024, EUreka3D project and ARTEST Erasmus+ project established a collaboration in a coordination meeting, which was focused on knowledge exchange and capacity building about 3D digitization supporting education in Social Sciences and Humanities.

The delegation of the ARTEST project included representatives from five EU members state institutions and five universities from Mongolia:

- University of Catania (UNICT) IT
- University of Cologne (UoC) DE
- University of the Peloponnese (UOP) GR
- Conservatoire national des arts et métiers, musée des Arts et Métiers FR
- International Hellenic University (IHU) GR
- Mongolian University of Science and Technology (MUST) MN
- National University of Mongolia (NUM) MN
- University of the Humanities (UH) MN
- Mongolian National University of Arts and Culture (MNUAC) MN
- Otgontenger University (OTU) MN

Among the presentations during the coordination meeting, after the welcome and introduction to the event by Marinos Ioannides (Cyprus University of Technology), an overview of EUreka3D was provided by Antonella Fresa, project coordinator, (Photoconsortium), following by a presentation of the Europeana initiative and the data space for cultural heritage by Jolan Wuytz (Europeana Foundation) and Sofie Taes (Europeana Network Association). Interesting overviews and discussions about the work ongoing in ARTEST and a brainstorm discussion about future collaborations complemented the coordination meeting.
