

EUreka3D and EUreka3D-XR presented at Europeana Aggregators Forum 2025

EUreka3D-XR (2025-2026)

Continuation project expanding the work of EUreka3D

Started on 1 February 2025

Kick-off meeting and presentation event 26-27 February in Pisa

Builds upon the EUreka3D Data Hub by adding new tools to reuse 3D collections in XR applications

Continues capacity building action

Showcases the results in 3 different XR scenarios in Girona, Bibracte and Cyprus

During this year's important event of Europeana Aggregators Forum (9-10 April 2025), Valentina Bachi from Photoconsortium delivered a presentation on both EUreka3D and EUreka3D-XR projects.

The presentation went through EUreka3D project's achievements with the developing of the EUreka3D Data Hub, the digitization and uploading of more than 350 objects on Europeana, capacity building programme and more. Later, the continuation project EUreka3D-XR was presented, highlighting its aim, its tools, scenarios and future plans.

The event overall had more than 30 people attending online, and many more attended on site.
