EUreka3D at the Seminar on Archives and Tourism in LLoret de Mar

The ?Archives and Tourism? seminar, which included presentations, round tables and several communications sessions, was held in Lloret de Mar on 24 May 2024. The objective of the ?Archives and Tourism? Seminar is to publicize the public and private documentary funds generated around tourism and encourage their recovery, conservation and organization among the tourism sector as part of the documentary heritage of contemporary society.

MAIN TOPICS

- Preservation of documentary heritage, and the diffusion of documentation related to tourism.
- Research and study of data, documents and archives linked to tourism.
- Current data and information management in tourism activities and future challenges.

As invited speaker, Antonella Fresa, vice president of Photoconsortium and project coordinator of EUreka3D, delivered a presentation entitled **Tourism, archives and culture: a digitally mediated relationship between preservation and experience,** also presenting the work being done in EUreka3D to support cultural institutions in the effort of implementing high quality and reusable 3D digitization processes to share their cultural collections.
