During the Forum, a session **?What if??? ? Gathering Aggregators' expectations and requirements towards the Data Space for Cultural Heritage** discussed about the development of the Data Space for Cultural Heritage, which EUreka3D is also contributing to by sharing new high quality 3D data and supporting the development of services, tools and standards.

Additionally, a focus on **Europeana's Twin It! campaign** presented the status of progress for the campaign to create a collection of iconic 3D cultural heritage items from the Member States in Europeana, including a presentation of upcoming Europeana publishing guidelines for 3D contentEUreka3D - EAF Meeting Autumn 2023, also basing on the requirement and developments of 3D-related projects like EUreka3D.

EUreka3D project is co-financed by the Digital Europe Programme of the European Union.
