

EUreka3D participating in EuropeanaTech 2023

[EUreka3D project](#), coordinated by Photoconsortium, will be hosted at the conference, that will take place from 10 to 12 October 2023. The project will be showcased through a [video presentation](#), currently in preparation, and the participation of EGI and their exhibition booth.

This opportunity will be crucial to disseminate EUreka3D work, progress and service to the community of professionals, technical providers and other stakeholders operating in the cultural and creative sector.

[Europeana Tech](#) is a conference aimed to all tech-minded professionals, developers, researchers and students working in and around digital cultural heritage across the globe: it's an opportunity to meet with, learn from and work with colleagues from all around Europe, exploring the challenges and opportunities that AI and 3D bring to the sector.
