

## EUreka3D-XR presented at Europeana Aggregators' Forum 2026

The [Europeana Aggregators' Forum](#) is the gathering where twice a year the community of Europeana most trusted partners meets to review strategies and collaborations, and make plans for the future. All the aggregators work with cultural heritage institutions to gather authentic, trustworthy and robust cultural data and make it accessible through Europeana. Through the Europeana Aggregators Forum, aggregators work to exchange the knowledge and best practice that support the digital transformation of cultural heritage institutions. This year, the Forum will take place in hybrid form, on March 4th to 5th.

EUreka3D-XR project, will be presented at the event on the 5th of March 14-14:45 CET, with session led by Valentina Bachi titled "**Working with 3D cultural heritage**", that includes a demonstration of the EUreka3D Data Hub by Ignacio Lamata Martinez from project partner EGI and will be followed by interactive activities with the audience.

EUreka3D-XR project is co-financed by the Digital Europe Programme of the European Union.
