

SAVE THE DATE: EUreka3D-XR Demonstration Event & Workshop

Demonstration Event & Workshop

29 January 2026, in Girona and online

The EUreka3D-XR organizes a Capacity Building and demonstration event at a moment when the project's progress in the development of tools and pilot scenarios has become both visible and significant, offering tangible insights into how 3D and XR technologies can serve the cultural heritage sector.

29 January 2026, 9.30 ? 16.00h (CET)

In Girona and Online

Venue: El Modern, Girona

Cultural Heritage professionals, archivists, researchers, and students of these fields are invited to an open event showcasing the outcomes of the project and mainly focusing on the innovative tools developed to enhance access and engagement with digital cultural heritage through 3D and Extended Reality (XR) technologies.

The day will be divided into two parts: a morning hybrid session, focused on demonstrations of the EUreka3D-XR tools and discussion on pilot scenarios; and an afternoon on-site workshop, dedicated to archivists and focused on hands-on experimentation with one of the project's tools.

Draft programme:

Morning session (hybrid, in English)

9.30h ? Welcome coffee

10.00h ? Introduction

10.20h ? EUreka3D-XR toolbox demonstration

11.20h ? Q&A

11.30h ? Round table *The potential of 3D for Cultural Heritage*

12.30h ? Q&A and end of morning session

Lunch break

14-16h - Afternoon on-site workshop (English and Catalan): Archives in 3D. From Records to Objects
