NOW LIVE on Europeana: EUreka3D-XR wrap-up post

As EUreka3D-XR approaches its final stage, we can start to draw conclusions from a fruitful 18 months and are delighted to share the project's work, achievements and resources: **"EUreka3D-XR: exploring cultural heritage through 3D digitisation and XR experiences"** is now live on the Common European Data Space for Cultural Heritage website.
The blogpost explores:

- The three case scenarios
- EUreka3D-XR project's aim and scope, including the priority given to Data quality and authenticity
- The open-source Toolbox
- The infrastructures provided by the projects
- The support from the EUreka3D initiative towards the TwinIt! Campaign
- The booklet produced in the context of Eureka3D-XR

Read it and learn more at this link<<<<

The blog also features the video summary of the EUreka3D initiative that was showcased at the Final Event in Cyprus. Watch it below:

EUreka3D-XR project is co-financed by the Digital Europe Programme of the European Union.
