EuroMed 2026 - 20th Anniversary of the Euro-Mediterranean Conference on Digital Cultural Heritage

For two decades, EuroMed has provided an international forum where researchers, cultural heritage professionals, museums and memory institutions, technology experts, industry, educators and policymakers come together to exchange knowledge and shape the future of Digital Cultural Heritage.

EuroMed2026 continues the momentum of the highly successful Digital Heritage Summit, organised in Cyprus during the Cyprus Presidency of the Council of the European Union: the Summit brought together the international community to address digital transformation, AI, 3D and immersive technologies, Europeana, the European Cultural Heritage Data Space, Digital Twins and the future of Cultural Heritage in Europe.

EuroMed2026, taking place 100% online on November 2-5, now extends this dialogue across geographical and disciplinary boundaries.

Abstracts for papers can be submitted online until 23 October: https://euromed2026.eu/important-dates

Registration is required, you can apply at this link<<<<
