

European Research and Innovation Days 2022: registration is open!

The 2022 edition of European Research and Innovation Days, the European Commission's annual flagship Research and Innovation event, will be held virtually on 28 and 29 September.

This leading event of the European Commission brings together researchers, entrepreneurs, policymakers and citizens to debate and shape the future of research and innovation in Europe and beyond.

In particular, this fourth edition gives participants the opportunity to discuss and shape new solutions to strengthen Europe's resilience and its strategic autonomy.

Among the topics on programme:

- ? the new European Innovation Agenda,
- ? the European Year of Youth,
- ? the richness of European cultural creativity,
- ? the EU Missions

This year, the "2022 EU Research and Innovation Days Village" will include several digital 'Houses', covering the Research and Innovation Policy and innovation files, the Horizon Europe Program, and the five EU Missions: Climate Adaptation, Cancer, Ocean, Cities, and Soil.

Thanks to the new interactive Exhibition citizens will be engaged directly with with the EU Missions.

For more information, to be updated and to register for the event, the event web page is available at
