

Europeana 2025 - Preserve, Protect, Reuse conference

Europeana 2025 - Preserve, Protect, Reuse will be held on 11-12 June 2025 during the Polish Presidency of the Council of the EU. The Conference is going to be hybrid and is organised in collaboration and partnership with the Ministry of Culture and National Heritage of Poland, the National Institute of Cultural Heritage and the POLIN Museum of the History of Polish Jews in Warsaw, who will host the conference.

The conference will explore critical questions facing the digital heritage sector and society at large, and how the data space can contribute to addressing them. It will delve into the preservation, protection and reuse of digital cultural heritage, both within the data space and beyond.

The conference is for professionals, students and policymakers working in, with and around cultural heritage, and interested in exploring the work of the common European data space for cultural heritage. We want the conference programme to be diverse and inclusive, and co-curate it with and for our sector through an open call for proposals. On this page, you can find all the information you need to submit your proposal for an interactive and engaging talk, webinar, workshop, session or intervention to be held online or in person during Europeana 2025.
