Europeana Aggregators Forum 2025

The Europeana Aggregators Forum is the gathering where twice a year the community of Europeana most trusted partners meets to review strategies and collaborations, and make plans for the future. All the aggregators work with cultural heritage institutions to gather authentic, trustworthy and robust cultural data and make it accessible through Europeana. Through the Europeana Aggregators Forum, aggregators work to exchange the knowledge and best practice that support the digital transformation of cultural heritage institutions.

This year the Forum will take place both online and onsite on the 9th and 10th of April.
