

Europeana Annual General Meeting 2013

The **Europeana Network Annual General Meeting (AGM)** is a key event for Europeana and its Network. It provides all partners with the opportunity to share experiences and discuss and develop ideas around specific areas of mutual relevance and interest. It was recently held on 2 December 2013 in Rotterdam, and beside a strong focus on the Europeana Business Plan 2014 and Horizon2020, it was as usual the perfect occasion for meeting other projects' representatives, sharing achievements and expertise, discussing possible future strategies and developing new partnerships.

[EuropeanaPhotography](#) was of course present in this important event: it was attended by the Technical Coordinator [Antonella Fresca](#)], who was also taking part as full member in the Public-Private Partnership task force session, **Sofie Taes of KU Leuven** and **Nacha Van Steen of KMGK**.

In the framework of the event, the interesting workshop organized by Europeana Creative "Bridging the gap with Creative Industries" and the [DISH conference](#) were also attended by the **EuropeanaPhotography** team.
Beside these networking and dissemination activities, a poster of **EuropeanaPhotography** was also displayed at the poster session.
