Europeana Project Month 2026

Run by the Europeana Foundation, this online event series spotlights the innovative EU-funded projects the Foundation actively partners on, advancing their mission for the common European data space for cultural heritage.

Europeana Project Month 2026 will offer **interactive, engaging, and dynamic sessions**, allowing cultural heritage professionals, educators, researchers and innovators to connect directly with project teams, exchange insights and explore new collaborations.

Taking place on Tuesdays and Thursdays throughout November, this year's edition will showcase key developments and actionable outcomes from 14 EU projects working across various themes relevant to the data space and cultural heritage sector such as 3D digitisation, digital skills and community empowerment, bridging the data space and the ECCCH, measuring data and impact in practice and synergies across the sector.

Each event day will consist of two dedicated time sessions:
Morning session: 09:30-12:00 CET
09:30-10:00 CET welcome and informal networking
10:00-12:00 CET project presentations
Afternoon session: 14:00-16:00 CET
