

Europeana WEAVE events focusing on diversity and inclusion

A calendar of WEAVE events programmed for February-March 2022 has focus on **capacity building**. The effort is devoted to cultural heritage institutions and to cultural managers, professionals, students, researchers, and communities.

A series of Europeana WEAVE events is specifically focused to **support a more diverse and inclusive cultural heritage sector**. These are four exclusive capacity building events on the topics of diversity and inclusion, to get a better understanding and inspire each other on how cultural institutions can play their part in a more diverse and inclusive sector.

The four short events will be carefully planned and moderated by WEAVE partners with the support of Europeana Foundation. Dates are: **11, 18, 25 February and 10 March, h. 13 CET**. The events are supported by a workbook that attendees can use for the entire series. The events series is an iterative process and, ideally, participants join all the events.
