

Discover the history of the walls of Girona

europæana

The story of Girona is the story of its walls - built in Roman times, altered in the Middle Ages, and demolished in the 19th and 20th centuries. Now the walls are being virtually reconstructed in 3D by the EUreka3D-XR project.

Go read the blogpost on Europeana, written by CRDI - Ajuntament de Girona, at [this link](#).

EUreka3D-XR project is co-financed by the Digital Europe Programme of the European Union.
