

Heritage Middle East: securing the future for the past

Heritage Middle East is the new fair dedicated to museum and exhibitions technologies, and is planned to be a meeting point for institutions and companies which lead the museology sector around the world,

It will bring fresh blood to the sector by organizing side events such as conferences etc. where leading museologists, museum designers, architects art historians, conservators and other art professionals come together,

It is planned to be a destination where all artistic and cultural activities of Arabic world are planned and the future projects are discussed, becoming an international meeting point which aims to be the market for the actors of global museology sector and where they join different activities together.

It is expected to be an international landmark event that plans to host more 100 companies and institutions, and around 3.000 visitors.
