ILUCIDARE Innovation Handbook

As one outcome of the ILUCIDARE project, this publication offers an innovation roadmap for whomever has a new idea related to a heritage building, site or even local traditions, and tries to identify paths for enabling creative ideas in cultural heritage sector to become innovations that make an impact.

The handbook includes:

- working definition for heritage led innovation including a review of what is already happening in the EU on the heritage and innovation front.
- case studies about specificities of heritage led innovations
- analysis to identify the most suitable approach to analyse and activate heritage-led innovation
- innovation roadmap ready for use.
