International conference on cross-border cooperation

The international conference **"Cross-border cooperation in the era of challenges and transformation ? space, energy, climate, culture"** will be held on 4 March 2026 at the Wroc?aw University of Environmental and Life Sciences, in Wroc?aw, Poland.

The conference will explore key issues facing border regions, from EU cohesion policy to energy transition, climate action and cultural cooperation.

Key thematic areas include EU cohesion policy, energy and climate transition, integrated territorial planning, culture and identity, innovation and smart specialisation, and socio-economic resilience in border regions.
Participation is free, but registration is required.
