

International Conference on Social Movement

The event is promoted by the **International Research Conference**, a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. With its high quality, it provides an exceptional value for students, academics and industry researchers. The International Conference on **Social Movement** is addressed to academic scientists, researchers and research scholars and aims to offer a chance for exchanging and sharing experiences and research results on all aspects of Social Movement. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Social Movement. **In order to encourage participation, the organisers lunched a call for abstracts, papers and e-posters.** High quality research contributions describing original and unpublished results of conceptual, constructive, empirical, experimental, or theoretical work in all areas of Social Movement are particularly welcome and will be invited for presentation at the conference.

The conference solicits contributions of abstracts, papers and e-posters that address themes and topics of the conference, including figures, tables and references of novel research materials.
