

## iPRES 2014 Conference

The 11th annual iPRES conference on digital preservation will be held from 6 to 10 October 2014 at the State Library of Victoria, Melbourne, Australia.

**The iPRES 2014 Coordinating Committee invites contributions of papers, posters, demonstrations, tutorials and workshops related to the increasingly broad topic of digital preservation.**

The 2014 conference is canvassing contributions along two primary axes ? Research and Innovative Practice. Contributions should address at least one of the following topics:

### **Infrastructure**

- intelligent and secure storage
- scalability
- complex formats
- large web data sets
- software and hardware dependencies
- system architectures and requirements
- distributed and cloud-based implementations

### **Communities**

- institutional contexts for preservation
- personal archiving
- collaboration
- collection content profiling

### **Strategic environment**

- legislative, strategy and policy enablers (eg preservation intent, pre-conditioning)
- standards
- local, regional and national approaches

## **Preservation strategies and workflows**

- migration
- emulation
- metadata
- risk measurement and management
- preservation planning and actions
- acquisition and ingest
- access provision

## **Specialist content types**

- web
- GIS
- digital art
- primary, scientific, sensor data
- governmental and medical records
- technical and scientific processes
- engineering models and simulation
- corporate processes and recordkeeping

## **A digital preservation marketplace**

- products
- tools
- services
- registries
- understanding authenticity and integrity
- exploitation of computationally aware data from our digital repositories
- business models
- added value
- benefits
- exploitation
- long tail

## **Theory of digital preservation**

- models
- empirical testing
- measuring semantic shift

## **Case studies and best practice**

- implementations
- repositories
- issues and wins

## **Training and education**

- educational needs
- curricula
- innovative offerings
