Image and Research 2026

The **Image and Research Conference** aims to foster reflection and the exchange of knowledge on various aspects related to the management of photographic and audiovisual heritage. **This year's edition** (19th Antoni Varés Conference) will be held in Girona on **19 and 20 November** - on 18 and 21 November, workshops related to the conference will take place at the Municipal Archive of Girona.

The 2026 edition is structured into 4 thematic blocks related to photographic and audiovisual heritage

- Innovation
- Access and creativity
- Heritage
- Conservation and historical research

Each will include two keynote presentations and several contributed papers on related topics. In addition, a dedicated debate session is included to address a specific issue that benefits from multiple perspectives.
