IS&T Archiving Conference 2016

ARCHIVING2016

The IS&T Archiving Conference brings together an international community of imaging experts and technicians as well as curators, managers, and researchers from libraries, archives, museums, records management repositories, information technology institutions, and commercial enterprises to explore and discuss the field of digitization of cultural heritage and archiving.

The conference presents the latest research results on digitization and curation, provides a forum to explore new strategies and policies, and reports on successful projects that can serve as benchmarks in the field.

Archiving 2016 is a blend of short courses, invited focal papers, keynote talks, and peer-reviewed oral and interactive display presentations, offering attendees a unique opportunity for gaining and exchanging knowledge and building networks among professionals.

Easy Innova submitted an article about the TI/A initiative and a proposal to organise a workshop. The title of the paper is: "Long-term Preservation and Archival File Formats: Concepts and solutions".

For further information visit the Conference website.
