

Juncker Digital Revolution at the IX Digital Regulation Forum

One of the world's most influential regulatory forum of the **Telecommunications and Digital Community** will be dedicated this year to the digital goals indicated in his programme by **President Jean-Claude Juncker**.

The **9th Digital Regulation Forum** is organised by **IIR Telecoms and Technologies**, in partnership with **Broadband4Europe** and **ChinaEU**.

The Forum will host the leading representatives from regulators, OTTs, operators and experts to deliver all the business critical information you need to push your business forward.

The Forum will give you the opportunity:

- to hear first-hand updates from the new players within the **digital ecosystem** and the **new Commission**
- to understand what the investor community expects in terms of **new telecom policies** for the **digital single market**
- to discuss how the **telecoms industry** can guarantee that value is created over networks
- to learn about the **digital revolution** taking place in key markets, including **China** and **Latin America**.
