

## KUI - "Culture and Computer Science" Conference, 11th edition

### XI. Conference Culture and Computer Science

The 11th edition of the "Culture and Computer Science" (<Ger.> Kultur und Informatik [KUI]) conference series brings into focus best practice examples, challenges, and future trends in the fields of visualisation and interaction. The conference targets cultural politicians, employees of cultural and creative industries, communication scientists, cultural and artistic actors as well as computer scientists and engineers, who conduct research and development on cultural topics.

The presentations will discuss the following key topics:

- General conditions of cultural politics
- Interdependence between culture and computer science
- Influence of art and culture on future developments
- The media-compatible treatment and enhancement of information
- Intuitive usage of media systems

These items shall primarily be analysed, demonstrated and discussed through best-practice examples for cultural and creative industries.

Official website and programme: <http://inka.htw-berlin.de/kui/13/>

Keynote speakers are:

- Dr. Susan Hazan, Israel Museum, Jerusalem
- Paul Barritt
- Prof. Dr. Stefan Weinzierl, Technische Universität (Berlin Institute of Technology) Berlin
- Prof. Dr. Christian Kassung, Humboldt University of Berlin

Workshops (in German language) will have place on 22 May.
