Media & Learning 2014 conference

Media & Learning 2014] is dedicated to the latest developments, services and uses of media in education and training. Aimed at both policy makers and practitioners, the purpose of this annual event, organized by the Flemish Ministry of Education, is to **identify policies and initiatives that promote digital and media competence at all levels of education and training as well as to promote best-practice in the take-up and application of media in education and training**.

Themes of discussion:

- the urgency of embedding digital and media literacy skills amongst the European workforce
- how best to convince stakeholders about the importance of embedding digital and media skills amongst learning professionals and learners at all levels of education and training
