Latest Downloads

Download MediaConch's [latest release](#) or a [daily build](#).

MediaConch now supports plugins including [VeraPDF](#) and [DPFManager](#)!

Upcoming Events]

We are so excited about our upcoming conference in 2 weeks! Please join us our pre-IETF Berlin Symposium: [No Time to Wait!](#) A free workshop for audiovisual archivists, developers, and open standards working groups from July 18th - 20th hosted by the [Deutsche Kinemathek](#), [Zuse Institute Berlin](#), and [MediaArea.net](#).

We are almost at capacity, so make sure to [Register Here!](#)

The MediaConch project and this symposium has received funding from [PREFORMA](#), co-funded by the European Commission under it's FP7-ICT Programme.

Feedback]

MediaArea is eager to build a community of collaborators and testers to integrate the software in their workflows and participate in usability testing. Please [contact us](#) if you'd like to be involved!
