

New collaborations of SECreTour with Omnis Vision SA

SECreTour Network of Common Interest

The SECreTour Network is growing!

We are very glad to announce that Omnis Vision SA has joined the SECreTour Network of Common Interest.

Omnis Vision SA is a strategic partner for the enhancement, management, and development of real estate assets and the territory. Its expertise and commitment to innovation of built and natural heritage is much relevant for the scope of SECreTour, when it comes to look for new opportunities and new perspectives of socio-economic and territorial development.

Through the newly established collaboration, Omnis Vision will participate in the [SECreTour pilot of Monte San Giorgio](#), contributing to discover novel ways for unlocking the potential of such a wonderful rural destination.

Further information about Omnis Vision SA are available at its website: <https://www.omnis.swiss/>

Follow SECreTour online also on the [SECreTour project's website](#).
