

Two new Open Educational Resources available in the context of EUreka3D-XR project

Developed by project partner Bibracte in the context of EUreka3D-XR, two Open-Source Educational on digital ancestry and archaeology:

?On the Shoulders of the Celts?, a step-by-step guidance to produce a construction game with cubes, addressing children of age 11+

<https://eureka3d.eu/wp-content/uploads/2026/09/On-the-shoulders-of-the-Celts.pdf>

"Exploring Heritage in New Ways ? How to Use 3D and Extended Reality with Young Audiences?"

<https://eureka3d.eu/wp-content/uploads/2026/09/Exploring-Cultural-Heritage-in-a-New-Way.pdf>

The two OERs are a way for children, tweens and young teenagers to connect with history and approach the cultural heritage field in a playful yet accurate way - without any limit for teachers to use, reuse, change or enhance the materials showcased in the documents.

EUreka3D-XR project is co-financed by the Digital Europe Programme of the European Union.
