

Open Call for Artists: MASTERCARD digital art project

Artacia and MasterCard are inviting **TWO Digital/New Media artists from Asia** to create artworks for the new MasterCard Experience Center in Singapore that will highlight factors that keep MasterCard at the forefront of technology and innovation.

This project aims to explore the convergence of art with innovation and its impact on society through the lens of MasterCard. The artworks will demonstrate how dynamic advances in technology are rapidly modifying our culture and way of life through specific themes selected by MasterCard.

Selected artists will be paid to fly to Singapore and spend a week to visit the MasterCard space and meet/interview relevant MasterCard staff before returning to their studios to develop the digital artwork.
